DETAILED ACTION

Allowable Subject Matter

Claims 1 – 10 and 16 – 20 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest an arrangement of a processor, a volatile memory and a non-volatile memory with three buses in the manner claimed. For example, figure 5 of Dye's disclosure shows all of the necessary components and multiple buses, but they are not arranged as required by the claims. There is only one bus (bus 118) that connects the processor to volatile and non-volatile memories that are connected to each other via a dedicated bus, while the claims require separate buses to connect the volatile and the non-volatile memories to the processor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
